GATES TIRES

The Tire with the Wider and Thicker Tread

Just Settle This Question—

It's the man who uses a tire that knows how it delivers—and you can bank on what he tells you about it.

So if you want the plain truth about the Gates Super-Tread tire, settle the matter once and for all by asking some of the hundreds around you who use it.

They will tell you—as they are telling us every day—that the wider and thicker tread makes the Gates tire deliver thousands of miles more than they can get from any other tire.

WHICH WOULD YOU RATHER POSSESS?

What part of YOUR anatomy is most valuable? And have you got it insured? So many persons now are doing this that problems of fixing fair rates were seriously discussed at

the fiftieth annual convention of life insurance presidents in New York.

Many there are who would wide fame to just one feature of their anatomy. Mary Pickford, for

example, whose curls are known from New York to Mindanao; Ann Pennington, whose legs have flashed before countless thousands; Ben Turpin, whose eyes are unlike any other eyes; Kitty Gordon, whose back is conceded to be the most beautiful; William Jennings Bryan, whose lips have enunciated oratory that has rung around the earth; Jack Dempsey, whose good right arm won \$500,000 with a blow; Charlie Chaplin, whose feet would be known among \$600,000,000; Babe Ruth, whose hands grip the home-run bat; Ignace Paderewski, whose fingers tripping over the piano keys have earned millions; Henry Ford, whose head has evolved America's most progressive industrial institution.

Look them over; study them! And then decide what part of YOUR physical structure is of greatest value. Are your fingers worth \$10,000 apiece—the price at which Paderewski has insured his? Or is it your ears or legs on which you are most dependent?

A bonfire made of huge logs gave plenty of heat and light, though the lanterns hung in the pale verde trees near the house added to the general festive arrangement. A grove of eucalyptus trees, reflecting the light from the flames, made a perfect background for the jolly crowd which encircled the bonfire. Games were played; popcorn, peanuts and wieners roasted over coals drawn from the fire, and a ukelele orchestra furnished the music. Dr. C. Rewick lead the story telling hour. Dean Ryder and Mrs. Frank Kiser gave several clever readings. Everyone voted this one of the most pleasurable events of the year.
